Education

BS Software Engineering (2016-2020)

GC University Faisalabad

During my four-year degree program in Software Engineering at GC University, I developed a strong foundation in software development, programming languages, and systems design. My coursework covered a wide range of subjects including algorithms, data structures, web development, database management, and software testing. I consistently demonstrated academic excellence, reflected in my CGPA of 3.6/4, while actively participating in various projects and internships that allowed me to apply theoretical knowledge to real-world scenarios.

Expertise

- Laravel
- Frontend Frameworks (Vue, React, Angular, Nuxt.js, Next.js)
- Javascript
- DEVOPS
- Database Architecture
- Linux Server Management
- CI/CD

Languages

- English
- Urdu

MUHAMMAD BILAL NAEEM

FULL STACK ENGINEER

About Me

Experienced Full Stack Engineer and Team Lead with a strong background in developing full-fledged applications from scratch.
